TABLE OF CONTENTS

Z.J. JAKUBOWSKI, W. MAJCHRZAK, K. SKALSKA, Complex harmonic functions with a positive real part	5
Z. LEWANDOWSKI, A. WESOŁOWSKI, Limiting cases of a univalence criterion	17
P. LICZBERSKI, J. POLUBIŃSKI, New applications of a generalization of the notions of even functions and odd functions	27
A. WRZESIEN, On majorization of Tiemliakov's operator in the class $S_D^*(\gamma)$ of the functions of two complex variables	37
W.B. VASANTHA KANDASAMY, Semi-vector spaces over semi-fields	43
B. ORCHEL, Placing bipartite graphs of small size, I	53
E. SIDOROWICZ, Size of C_3 -saturated graphs	61
J. ŚLADKOWSKA, The characterization of the interior points of the coefficient region for univalent and bounded functions	67
J. SOKÓŁ, Z. STANKIEWICZ, On images of unit disc under some starlike functions	75
A. BIEROWSKA, M. BIEROWSKI, Numerical problems of the construction of involute surface generators	81
M. STARTEK, Computer programs in didactic of mathematics	85
I. WŁOCH, Generalized exponents of the disjunction of two directed graphs	91
A. WŁOCH, On existence of strong $(k, k - 2)$ -kernels in some classes of undirected graphs	97
