## TABLE OF CONTENTS

Z. J. JAKUBOWSKI, A. LAZIŃSKA, On typically-real functions in the half-plane .....	5
J. DZIOK, On a starlikeness problem in the class $CS^*$ .....	25
J. DZIOK, J. STANKIEWICZ, The radius of starlikeness for a certain class of meromorphic multivalent functions .....	33
V. GORDIENKO, D. PROKHOROV, Optimization in an extremal problem with for bounded univalent functions .....	39
P. LICZBERSKI, J. POLUBIŃSKI, On some linear operators in the space of complex $L^2$ -functions .....	47
R. PARVATHAM, M. PREMABAI, Neighbourhoods of convex functions with respect to symmetric points .....	57
J. ŚLADKOWSKA, A variational method for univalent nonvanishing functions in the unit disk .....	63
A. WIŚNIEWSKA, Relations between special subclasses of starlike functions .....	79
A. WRZESIŃ, On majorization of derivatives in the class $S^*(\gamma)$ of the functions in Banach spaces .....	89
L. TROJNAR-SPELINA, Operator properties of the classes of functions with negative coefficients .....	95
S. D. BAJPAI, I. A. AL-KHAYAT, Bessel-Exponential-Laguerre partial differential equation and Fox's $H$ -function .....	105
V. KRAVETS, Y. CHIBUSHOV, Method of finding the analytical solution of the algebraic particular aspect equation .....	113
G. S. MISZURIS, On nontrivial solution of one singular integral equation .....	119
J. GÓRNICKI, A remark on fixed points of asymptotically regular mappings in uniformly convex Banach spaces .....	131
